

Al-Dakheel Oud Factory

- Established in 2016, Al-Dakheel Oud Factory is one of the national factories specialized in the manufacturing and production of oud and perfumes.
- The factory utilizes the latest global technologies applied in the field of perfume manufacturing and its derivatives.
- Al-Dakheel Oud Factory is among the first specialized factories in this field to obtain a license from the Food and Drug Authority.
- The production lines are designed according to the latest global specifications in terms of advanced technology and high production capacity, enabling them to accommodate large production quantities with complete efficiency and speed.
- The factory comprises seven production lines, including a perfume manufacturing and packaging line, a liquid manufacturing and packaging line, as well as a cream manufacturing and packaging line, and an incense manufacturing and packaging line.
- The factory holds the ISO 9001:2015 certification in its new version, which crowns the application of the highest quality standards in manufacturing and production, as well as the ISO 14001 certification for the implementation of environmental management systems.
- It is considered one of the national factories specialized in the manufacturing and production of oud and perfumes, holding a Good Manufacturing Practices (GMP) certification from the Food and Drug Authority.
- Al-Dakheel Oud Factory has significant capabilities that make it worthy of providing high-quality products.
- The factory produces more than 500 varieties, ranging from perfumes, oud, and oud oil, to blends, personal care products, home care products, hand sanitizers, body creams, body oils, and more.
- The factory's products carry the "Saudi Made logo", contributing to the achievement of Saudi Arabia's Vision 2030, which aims to promote and encourage national industry in global markets.
- Inside the factory, there are several warehouses, including raw material warehouses and finished goods warehouses, in addition to specially designed administrative areas that carry the identity of Al-Dakheel Oud.
- All production operations are monitored in real-time through the Quality Control Department to ensure the safety of products until they reach the customer at the highest levels of quality and safety.
