

# What is Colloidal Oatmeal

Colloidal oatmeal, the key component in all Dermavive products, is crafted from finely ground avena sativa or oats. This ingredient acts as an emollient, aiding in the softening, soothing, and protection of the skin. Furthermore, it boasts valuable anti-inflammatory, antioxidant, and barrier-enhancing attributes, validated to address dryness and sensitivity, promoting skin healing, restoration, and rejuvenation.

## The Dermavive Story

Founded in 2000 by Urvashi and Ajit Seth, Dermavive was born from a profound belief in the power of Colloidal Oatmeal and a sincere mission to aid those grappling with dry skin and scalp issues. This journey was driven by a commitment to help individuals seeking relief and caregivers supporting loved ones, be it children or parents, navigating similar conditions. The Dermavive brand became renowned for offering safe, natural, and gentle solutions suitable for the entire family.
