Unique Market Positioning

L'Abelâge Solutions distinguishes itself through a distinctive blend of indulgence and efficacy, which caters to a growing demographic seeking premium skincare. The brand's French heritage enhances its allure, tapping into the global perception of France as a hub of beauty and fashion.

Established in 2018 by international group of leaders in the direct selling industry, L'ABELÂGE SOLUTIONS is backed by decades of expertise and a bold vision. Our mission is clear: to create a long-term international sales organization built on the principles of direct selling, delivering only the highest quality cosmetics. By choosing to forgo traditional advertising, we ensure that our products stand out as uncompromisingly effective and luxurious.

Our success began with the meticulous selection of top-tier partners in cosmetics manufacturing in France and exquisite packaging suppliers in Italy and other EU nations.

****L'Abelâge Solutions Formulas:****

To revolutionize skincare, we collaborated with leading French experts and international safety assessors from Slovenia, guaranteeing precision in every ingredient we use.

****Instructions Regarding Ingredients:****

We demand only the best:

1. Luxury ingredients that deliver unparalleled effectiveness, including:

- **Black caviar**
- **24-carat gold**
- **Pearl powder**

2. Ingredients that provide immediate results.

3. Ingredients focused on long-lasting benefits.

We prioritize the highest quality ingredients—such as hyaluronic acid, Dead sea minerals, peptides, herbal extracts, stem cells, and helix aspersa—adhering to the manufacturer's guidelines for quantity without budget constraints. This unwavering commitment ensures excellence in every product.

****VITAMIN CAPSULES****

We understand the complexities of vitamin potency, which is why we have enhanced the L'Abelâge Diamond Edition line with cutting-edge capsule-protected vitamins. This advanced technology preserves their effectiveness, ensuring they activate only upon application.

****Packaging****

In our relentless pursuit of customer satisfaction, we invest significant resources into our packaging solutions. We chose Italy for primary packaging, renowned for its exquisite design. Glass is our material of choice, meticulously crafted with a delicate frosting process to enhance elegance. Our jars and bottles are elevated with real gold accents, enhancing their luxurious appeal.

For secondary packaging, we partnered with a prominent Slovenian company to co-create refined lacquer that includes real pearl powder, providing an opulent touch. After production in France, our products are sent back to Italy for high-quality cellophane wrapping, ensuring they leave a lasting impression.

****DERMATOLOGICAL TESTING:****

Our rigorous testing at Hamilton International Laboratories has yielded results that exceed expectations. Our formulations are proven to be effective without causing allergies or irritation, even for sensitive skin.
